

PALM OIL POLICY

SCOPE OF POLICY

This policy applies to all Sasol Performance Chemicals suppliers and other parties involved in our oleochemical palm oil and palm kernel oil supply chains.

COMMITMENT STATEMENT

Sasol Performance Chemicals is committed to ensure all its products are produced in line with sustainable guidelines. This is ensured through continuous improvement of its operations and concurrently adhering to the guidelines to improve the use of natural resources. Furthermore, Sasol strives to assure and enhance the socioeconomic conditions for its employees and associated local communities. This commitment extends along the entire supply chain.

Sasol Performance Chemicals fully supports the Principles & Criteria that are set by the Roundtable on Sustainable Palm Oil (RSPO). We consider them to be the foundation of our sustainability efforts for this resource and are committed to enforce the aspects described in this policy.

NO DEFORESTATION COMMITMENT

Sasol Performance Chemicals will work closely with its suppliers to develop and implement an action plan to reduce deforestation along the supply chain. The following aspects will be covered as a minimum:

- Meet the current RSPO Principles & Criteria
- Implement a relevant RSPO certification standard (e.g. Supply Chain Certification Scheme)
- No development in High Conservation Value (HCV) areas and High Carbon Stock (HCS) forests
- No development on peat lands regardless of depth
- No use of burning to clear land for new development or replanting
- Respect for human rights and ethical labor practices (e.g. no child or forced labour).

TRACEABILITY

Sasol Performance Chemicals is committed to establishing the traceability of all its products derived from palm or palm kernel oil. We will work closely with our key suppliers to establish a traceable palm oil derivative supply chain.

IMPLEMENTATION TIMELINE

Sasol Performance Chemicals understands that supply chains are complex and need time to adapt. Nevertheless, we expect our key palm and palm kernel oil derivative suppliers and other relevant supply chain partners to fully comply with the commitments of this policy by the end of the year 2017.

COMPLIANCE WITH THIS POLICY

Sasol Performance Chemicals upholds a clear set of company values. Accountability and integrity, being part of the value set, establish our expectations on compliance. We will continuously engage with our suppliers and relevant supply chain partners to ensure that this policy is strictly enforced.

In cases of reoccurring or chronic non-compliance or serious violation, Sasol Performance Chemicals reserves the right to take appropriate action, such as the suspension or exclusion of these suppliers or supply chain partners from the list of approved suppliers.

June 2017

Brad Griffith
Senior Vice President, Sasol Performance Chemicals
